

POG DIGITAL ROADMAP 2022 V.1

PROJECTED TIMELINE

POG Digital is building a web3 gaming platform. We will launch exclusive Pogman games and build them for our community (player owned gaming). In doing so, we will bridge web2 to web3 through a proprietary Solana-based blockchain solution. We will make POG NFTs and future arcade coins accessible to our game development partners, gamers, and collectors.

Build Team

4 Leaders from Unity
1 VP from Dapper Labs
1 VP from Solana Labs
1 Advisor from WAX.IO
1 Lead Dev from Dev Dao
*COMPLETED
